~ Topic of Discussion ~

**“How to encourage optimism at the local level
 in today's challenging economic climate”**

*Suggestion: Bring a car-load of folks from your town! This small investment of time will
 motivate your civic leaders to reach new heights of success in your own community!*

Who should participate? Decision makers and “movers & shakers” from your community
How many should participate? The more the better! Your community gains the most when several from
 your community attend... ride together and strategize!!!
